ROMAN

New Collection

Jeffrey Alexander's new Roman collection pays homage to its namesake by taking inspiration from the Arch of Constantine in Rome. Roman pairs a flowing arch with its strong and structured foot for a noticeably bold yet graceful combination. The same form is followed in the 1-1/4" coordinating knob. The high arch of Roman's pull discreetly adds the additional height aging in place and ADA projects require while presenting a refined look. Notably, archways have been known to represent moving into a new phase of life. What better way to celebrate a new kitchen or bath by adorning cabinets with such a powerful symbol.
